

Vines

Flowering season

Between May and June comes flowering. During this period, the flowers open, the caps fall and future grapes appear.

It's all about this period. The weather highly influences the quality of future grapes. Vines need warm weather, sun and some rain: pollination must be optimal to help fruit set.

Beautiful is expected harvest if the sky is here to stay.

Biodiversity

Distillerie des Moisans in the heart of biodiversity

On June the 14th, we have celebrated the agreement signed between PUR (Global Leaders in Nature-Projects), LIFE VISON, LPO (Wild Birds Directive) and our Distillery. The goal is to preserve European mink, in danger of extinction.

The engagement of Distillerie des Moisans is to provide 20 hectares (65 acres) in MAE (agro-environmental measure) meadow alongside the Charente river, to help growing fauna and flora to protect European mink.

Thanks to the plan "let's plant hedges in Nouvelle-Aquitaine", PUR company financed the plant of 2 200 hedges in 2,2 km.

Aromatic garden

Flowers and botanicals to delight the eyes and the taste buds are flourishing in our educational garden in line with our creations and cocktails. LIFESTYLE!

Cellar Master

David FLORAC

Experience, Skills, Excellence are his values, in total line with our house.

David comes from Cognac and he spent most of his life in Charente. From an early age he spends a lot of time with grandparents, producers of pineau and cognac in the very rare appellation of « Borderies ».

Very quickly, he loves the distillation and he focuses his studies in a Master of biochemistry and biotechnology. He obtains an experience in research laboratory in New Zealand.

Full of skills, David is recruited in a famous cognac's house and has the responsibilities of distillation and blending. Finally, he will stay 8 years in this company.

Looking for new adventure, he joined an important distillery belonging to a worldwide known French group during 8 years.

Today, David joins the « Distillerie des Moisans » which he describes as a jewel, and it's an honor for us to welcome him.

He excels every day by his skills of cellar master, organizer and leader.

David loves his work because it is challenging and fundamental, with a permanent search of excellence to honor cognac history.

Trade shows

World famous trade shows

From February 13 to 15,
Vinexpo in Paris.
